## I. Introduction

The New York State Department of Health (Department), Office of Health Insurance Programs, Medicaid Redesign Team Supportive Housing Initiative announces the availability of State funds to procure and expand the Health Home Supportive Housing Program (HHSHP) in Richmond County, Staten Island. HHSHP Staten Island is a rental subsidy and transitional housing support services program for high-cost, high-need Medicaid members. Approximately \$3.2 million is available for a four-year period, with anticipated funding broken down as follows:

**Table 1**

<b>HHSHP Staten Island Grant Funding by Year</b>		
<b>Contract Year</b>	<b>Period</b>	<b>Amount</b>
1	January 2020 to December 2020	\$800,000
2	January 2021 to December 2021	\$800,000
3	January 2022 to December 2022	\$800,000
4	January 2023 to December 2023	\$800,000

Funds will be awarded to a single provider capable of administering and continuing this initiative on Staten Island, serving the population as defined by this Request For Applications (RFA) and continuing to serve Staten Island's existing program participants. Applicants should take this into consideration when applying.

### **A. Background**

In January 2011, Governor Andrew M. Cuomo issued Executive Order Number 5 which established the Medicaid Redesign Team (MRT), bringing together a group of health care stakeholders, experts, and advocates from throughout New York State. The goals of the team were to improve overall health system quality and efficiency, streamline and focus health care administrative and financial structures, and reduce Medicaid cost while emphasizing the delivery of well-managed, cost effective quality health services.

The Supportive Housing Workgroup was created through MRT and charged with developing recommendations for changes to housing programs for high-cost, high-need Medicaid members, such as the homeless, precariously housed, or those living in institutional settings. The goals, through implementing these recommendations, were to reduce the dramatic growth in Medicaid spending in New York, while maintaining and improving health outcomes for Medicaid members.

One recommendation of the MRT Supportive Housing Workgroup was to provide funding for the housing needs of Medicaid members enrolled in New York's Health Home program. In furtherance of that recommendation, the Department's MRT Supportive Housing Initiative launched the Health Home Supportive Housing Program and is issuing this RFA to continue aiding the participants currently being served on Staten Island, and expand the program to new participants in Richmond County. HHSHP is a prior program that was in effect from 10/1/2014-9/30/2018 and will be extended on Staten Island until the new award is made through this RFA.

The Department is issuing this RFA to seek applications from Providers (also referred to as the provider or as the applicant) for funds to be used to provide rental subsidies and non-medical services to provide housing for homeless Medicaid members who are enrolled in New York State's Health Home Program on

Staten Island. The rental subsidies and services provided under HHSHP Staten Island are intended to be a means to provide affordable and stable housing and services, to thereby improve access to health services and the health status of Health Home members who are high-cost, high-utilizers of Medicaid services. This program will serve participants that are already enrolled in the program and single individuals who are enrolled in Health Homes, and may include a certain number of families with minors under the age of 18 years old.

## **B. Intent/Purpose**

The intent of the funds is to continue and grow a successful program that ensures rental subsidies, at or below the U.S. Department of Housing and Urban Development (HUD) Fair Market Rents (<https://www.huduser.gov/portal/datasets/fmr.html>), and transitional housing support services are made available for eligible participants (see Section III for participant eligibility criteria). The program may not be used to subsidize placement in congregate care settings, including Assisted Living Facilities, Enriched Housing, Assisted Living Programs, Assisted Living Residences, etc.

## **II. Who May Apply**

### **A. Minimum Eligibility Requirements**

Applications for providing rental subsidies through HHSHP Staten Island will only be accepted from not-for-profit corporations and government agencies authorized to do business with New York State, and available to provide services on Staten Island. A qualified applicant must also have at least three years of experience in the following areas or demonstrate the capability to establish a contractual relationship(s) with a subcontractor(s) having such experience:

- Housing for homeless individuals;
- Housing of individuals who have the health conditions of those members eligible for Health Homes; and
- Providing services and supports to help individuals, who have health conditions which meet the criteria for Health Home services, to become and remain stably housed.

Applicants must be able to serve existing program participants and continue to expand HHSHP on Staten Island. There are currently 42 HHSHP Staten Island participants.

## **III. Project Narrative/Work Plan Outcomes**

The awarded applicant will continue rental subsidies established under the current award for the 42 participants currently being served under the HHSHP on Staten Island, as well as provide opportunity for new participants. Rental subsidies must adhere to the Federal Housing and Urban Development (HUD) Fair Market Rents (FMR) standards and have participants pay 30% of their income towards rent. Rental subsidy calculations must follow HUD standards and guidelines. The Department's grant funds cannot be used for expenses that are covered under Medicaid and should be used as last resort.

The intent of the program is for supportive housing providers to collaborate with Health Homes to:

- Identify and locate homeless Health Home members or eligible members that are in the enrollment process;
- Leverage partnerships with Health Home and a health plan organization, performing provider system (PPS), and/or hospital to target high-cost, high-need Medicaid utilizers;
- Provide housing at FMR to facilitate access to health services and improve the health status of Health Home members; coordinate the efforts of the Health Home Care Manager and the Housing Specialist to implement the Health Home Member's Plan of Care; and
- Provide an opportunity for providers and Health Homes to develop methods to ensure that Health Home members remain stably housed.

The awarded provider must work with the Health Home to move homeless high-cost, high-need Medicaid members into supportive housing and provide rental subsidies, community transitional services, and supportive services. This is a scattered site program and the awarded grantee must have the housing leases, or sub-leases, in the participants' name. The program is voluntary for homeless Health Home members, and is not mandatory.

Participants in the program may include a certain number of families with minors under the age of 18 years old. A family is to be considered an eligible individual that has legal custody of a child, or children, under the age of 18 years old.

It is the responsibility of the awarded provider to verify all eligibility of potential participants, and to verify that existing participants maintain their Medicaid and Health Home enrollment to continue their program eligibility. Eligible participants who are awaiting an organ transplant, and need emergency housing to meet waitlist requirements, must be given priority for housing under HHSHP Staten Island.

The awarded provider must submit the Medicaid Data Warehouse and Rental Subsidy Tracking spreadsheets monthly, and track where participant referrals into the program are received from. Quarterly and annual reports are also required to be submitted to the Department. Reports include services provided, new or discharged participants, referral source tracking, and other details/reports deemed necessary by the Department.

Applicants may subcontract components of the scope of work (enter percentage that must be retained if required). For those applicants that propose subcontracting, it is preferable to identify subcontracting agencies during the application process. Applicants that plan to subcontract are expected to state in the application the specific components of the scope of work to be performed through subcontracts. Applicants should note that the lead organization (contractor) will have overall responsibility for all contract activities, including those performed by subcontractors, and will be the primary contact for the DOH. All subcontractors should be approved by the Department of Health.

#### **A. Community Transitional Services**

Community transitional services (CTS) provided under this grant are for the successful transition of homeless participants to accessible, safe, sanitary, and sustainable housing in the community. ## **G. Project Requirements**

### **1. Experience of Applicant and Identification of Health Home Partner**

Applicants will be required to document that they meet the minimum eligibility requirements as described in Section II of this RFA and their experience in providing housing. Applicants must also identify one or more designated New York State Health Home(s) from which a Letter of Commitment has been received to be the applicant’s Health Home partner for the purposes of the RFA. Eligible Health Home partners include designated New York State Health Homes. A list of all designated Health Homes is listed here:

[https://www.health.ny.gov/health\\_care/medicaid/program/medicaid\\_health\\_homes/hh\\_map/index.htm](https://www.health.ny.gov/health_care/medicaid/program/medicaid_health_homes/hh_map/index.htm)

It is the Department’s preference that housing providers be part of the network of its chosen Health Home partner at the time of application. In cases where the housing provider is not already part of the network of its chosen Health Home partner at the time of application, the housing provider must include in its application a signed Letter of Commitment from its chosen Health Home partner, indicating its intention to enroll the housing provider in its Health Home Network.

### **2. Collaborative Approaches Developed by Housing Provider and Health Homes**

Applicants will be required to describe the approaches, methods, and/or procedures the housing provider/applicant and its Health Home partner have developed and agreed to employ, to address each of the following issues, and to the extent applicable, explain why the agreed to approaches, methods or procedures are a best practice:

- Identify and locate the Health Home members who need housing or eligible members that are in process of enrollment;

- Maximize the use of funds awarded under this RFA by developing and documenting procedures for verifying the Health Home member is not eligible for other housing alternatives/programs, or if the member is eligible for other housing alternatives, such alternatives are not immediately available. All members should be signed up for Section 8 at enrollment;
- Maximize the use of funds awarded under this RFA by ensuring its proposal and approaches do not duplicate efforts of the Health Home care manager and housing specialists or other housing staff;
- Determine what type of housing is most appropriate for the Health Home member and how assessments of the member and the member’s care plan inform that decision;
- Include the Health Home member’s participation in housing and other decisions to help the member remain stably housed;
- Determine how the Health Home care manager and the housing program, including housing specialists and counselors, will collaborate to identify housing related and other support services that complement the member’s care plan and increase the ability of the member to remain stably housed; and
- Determine how the Health Home care manager and the housing specialist/counselor will keep each other informed of the member’s status, including if the member’s housing or health status should become unstable.

### **3. Agreement to Meet Reporting Requirements**

Providers who receive funds under this RFA must agree to maintain accurate reports of the use of funds, both in the aggregate and by Health Home member. Please see “Section V. Completing the Application” for additional information required for reporting requirements of this RFA.

### **4. New York State’s Health Home Program**

The Health Home Program is authorized by Section 2073 of the Affordable Care Act (ACA) as an optional Medicaid State Plan benefit to establish Health Homes to coordinate care for people with Medicaid who have chronic conditions. Through the efforts of New York’s Medicaid Redesign Team (MRT) and approved State Plan Amendments by the Centers for Medicare and Medicaid Services (CMS), the New York State Health Home Program was launched on January 1, 2012.

Health Homes utilize a care management services model that uses a “care manager” to ensure all the professionals involved in a Health Home member’s care communicate regularly. Health Home services are provided through networks and partnerships between physical and behavioral health care providers, health plans, and community-based organizations. Because of this, all member’s needs (medical, behavioral health and social services) are addressed in a comprehensive manner. Housing providers are a critical component of the Health Home network.

### **H. Eligibility for Health Home Care Management Services**

The Health Home care management model is designed to increase quality care and efficiency to improve the health of Medicaid members with chronic medical and behavioral conditions. To qualify for New York State Health Home care management services, Medicaid members must have two chronic conditions, or one single qualifying condition (HIV/AIDS or one serious, persistent mental health condition [SMI]).

Chronic conditions include, but are not limited to the following:

- Mental health condition
- Substance abuse disorder
- Asthma
- Diabetes
- Heart disease
- Being overweight (BMI over 25)
- Hypertension

For more information about Health Home eligibility criteria, including chronic conditions, please see New York State Health Home State Plan Amendments at:

[https://www.health.ny.gov/health\\_care/medicaid/program/medicaid\\_health\\_homes/docs/09-23-2014\\_hh\\_eligibility\\_policy.pdf](https://www.health.ny.gov/health_care/medicaid/program/medicaid_health_homes/docs/09-23-2014_hh_eligibility_policy.pdf).

## 1. Core Health Home Services

Health Homes, through the work of their care managers, are required to perform the following five core (exclusive of Health Information Technology requirements) services:

- **Comprehensive care management** (e.g., complete a comprehensive health assessment, inclusive of medical, behavioral, rehabilitative and social service needs; complete, update and revise as needed, an individualized patient centered plan of care with the patient to identify patient's needs and goals, and include family members and other social supports, as appropriate);
- **Care coordination and health promotion** (e.g., coordinate with service providers and health plans, crisis intervention, monitor, educate, support, and accompany the client to scheduled medical appointments);
- **Comprehensive transitional care** (e.g., facilitate discharge planning from an ER, hospital, residential and/or rehabilitative facility to ensure safe transition; link client with community supports to ensure that needed services are provided);
- **Individual and family support** (e.g., develop, review and revise individual's plan of care with client and family to ensure plan reflects individuals' preferences, education, and support for self-management; refer client and family to peer supports, support groups, social services, entitlement programs as needed); and
- **Referral to community and social support services** (e.g., collaborate and coordinate with community-based providers to support effective utilization of services based on client need).

## 2. New York Designated Health Homes

There are currently 32 Health Homes, with a presence in 62 counties in the state that serve both Adults and Children. Some Health Homes operate in more than one region of the state. For a complete list of designated Health Homes, the counties they serve and primary contact information please see DOH's web site for Health Homes at the address below:

### **3. Linkage Between Health Home and Housing Provider**

Documentation of the collaboration and on-going communication between the Housing provider and Health Home (and designated care management agency) regarding the participant's goals and plan of care must be accurately reflected in the participant's record and updated regularly. The Housing Provider and its respective Health Home partner must have agreed upon strategies and approaches that include, but are not limited to, the following:

- Identify and locate the Health Home participant that needs housing;
- Provide housing as a means to improve access to health services, improve the health status of health home participants, and thereby reduce cost of high utilizers of Medicaid;
- Identify procedures for verifying the Health Home participants are not eligible for other housing alternatives;
- Ensure approaches do not duplicate efforts of the Health Home Care manager and Housing Specialists or other Housing staff;
- Determine what type of housing is most appropriate for the Health Home participant and how assessments of the participant and the participant's care plan inform the decision;
- Involve the Health Home participant in his/her housing and other decisions concerning remaining stably housed;
- Determine how the Health Home Care Manager and the housing program, including housing specialists and counselors, will collaborate to identify housing related and other support services that complement the participant's care plan and increase the ability of the participant to remain stably housed;
- Determine how the Health Home Care Manager and the housing specialist/counselor will keep each other informed of the participant's status, including if the participant's housing or health status should become unstable; and
- Identify best practices, procedures and methods for Supportive Housing Providers to collaborate with Health Homes.

## **H. Minority & Woman-Owned Business Enterprise Requirements**

Pursuant to New York State Executive Law Article 15-A, the New York State Department of Health (“DOH”) recognizes its obligation to promote opportunities for maximum feasible participation of certified minority- and women-owned business enterprises and the employment of minority group members and women in the performance of DOH contracts.

In 2006, the State of New York commissioned a disparity study to evaluate whether minority and women-owned business enterprises had a full and fair opportunity to participate in state contracting. The findings of the study were published on April 29, 2010, under the title "The State of Minority and Women-Owned Business Enterprises: Evidence from New York" (“Disparity Study”). The report found evidence of statistically significant disparities between the level of participation of minority- and women-owned business enterprises in state procurement contracting versus the number of minority- and women-owned business enterprises that were ready, willing and able to participate in state procurements. As a result of these findings, the Disparity Study made recommendations concerning the implementation and operation of the statewide certified minority- and women-owned business enterprises program. The recommendations from the Disparity Study culminated in the enactment and the implementation of New York State Executive Law Article 15-A, which requires, among other things, that DOH establish goals for maximum feasible participation of New York State Certified minority- and women-owned business enterprises (“MWBE”) and the employment of minority groups members and women in the performance of New York State contracts.

### **Business Participation Opportunities for MWBEs**

For purposes of this solicitation, the New York State Department of Health hereby establishes a goal of **30%** as follows:

- 1) For Not-for Profit Applicants: Eligible Expenditures include any subcontracted labor or services, equipment, materials, or any combined purchase of the foregoing under a contract awarded from this solicitation.
- 2) For-Profit and Municipality Applicants: Eligible Expenditures include the value of the budget in total.

The goal on the eligible portion of this contract will be 15% for Minority-Owned Business Enterprises (“MBE”) participation and 15% for Women-Owned Business Enterprises (“WBE”) participation (based on the current availability of qualified MBEs and WBEs and outreach efforts to certified

MWBE firms). A contractor (“Contractor”) on the subject contract (“Contract”) must document good faith efforts to provide meaningful participation by MWBEs as subcontractors or suppliers in the performance of the Contract and Contractor agrees that DOH may withhold payment pending receipt of the required MWBE documentation. For guidance on how DOH will determine “good faith efforts,” refer to 5 NYCRR §142.8.

The directory of New York State Certified MWBEs can be viewed at: <https://ny.newnycontracts.com>. The directory is found on this page under “NYS Directory of Certified Firms” and accessed by clicking on the link entitled “Search the Directory”. Engaging with firms found in the directory with like product(s) and/or service(s) is strongly encouraged and all communication efforts and responses should be well documented.

By submitting an application, a grantee agrees to complete an MWBE Utilization plan as directed in **Attachment 2** of this RFA. DOH will review the submitted MWBE Utilization Plan. If the plan is not accepted, DOH may issue a notice of deficiency. If a notice of deficiency is issued, Grantee agrees that it shall respond to the notice of deficiency within seven (7) business days of receipt. DOH may disqualify a Grantee as being non-responsive under the following circumstances:

- a) If a Grantee fails to submit a MWBE Utilization Plan;
- b) If a Grantee fails to submit a written remedy to a notice of deficiency;
- c) If a Grantee fails to submit a request for waiver (if applicable); or
- d) If DOH determines that the Grantee has failed to document good-faith efforts to meet the established DOH MWBE participation goals for the procurement.

In addition, successful awardees will be required to certify they have an acceptable Equal Employment Opportunity policy statement.

#### **I. Limits on Administrative Expenses and Executive Compensation**

On July 1, 2013, limitations on administrative expenses and executive compensation contained within Governor Cuomo’s Executive Order #38 and related regulations published by the Department (Part 1002 to 10 NYCRR – Limits on Administrative Expenses and Executive Compensation) went into effect. Interim reports are also to be submitted upon request by the Department.

**8. Budget:**

*(Maximum Score: 20 points)*

Applicants must complete Year 1 of the budget online in the Grants Gateway and must submit the Excel template spreadsheet for Year 2. The Excel Spreadsheet template is located under Pre-Submission Uploads as Attachment 5. See Attachment 7 for the Grants Gateway Budget Data Entry Guidelines. Failure to submit a complete budget proposal, including Year 1 and 2, may result in disqualification.

All costs must be related to the provision of the procurement as well as be consistent with the scope of services, reasonable and cost effective. Justification for each cost should be submitted in narrative form. For all existing staff, the Budget Justification must delineate how the percentage of time devoted to this initiative has been determined. The requested budget must not exceed the amount assigned in Table 1 of the RFA. **THIS FUNDING MAY ONLY BE USED TO EXPAND EXISTING ACTIVITIES OR CREATE NEW ACTIVITIES PURSUANT TO THIS RFA. THESE FUNDS MAY NOT BE USED TO SUPPLANT FUNDS FOR CURRENTLY EXISTING STAFF ACTIVITIES.** Services or items that are billable to Medicaid are not eligible for reimbursement with these grant funds.

Any ineligible budget items will be removed from the budget prior to contracting. The budget amount requested will be reduced to reflect the removal of the ineligible items.

It is the expectation of the Department that funding for rental subsidies and community transitional services under the Health Home Supportive Housing Program Staten Island be at least 50% of the applicant's proposed budget. 60% or higher is ideal.

Administrative costs will be limited to a maximum of 10% of total direct costs.

Expenditures will not be allowed for the purchase of major pieces of depreciable equipment (although limited computer/printing equipment may be considered), remodeling, or modification of structure.

**a. Rental Subsidies**

- 1) Budgets must include at least 50% of funding for rental subsidies and community transitional services (CTS), both of which are considered Operating Expenses;
- 2) The monthly and annual (monthly subsidy \* 12 months) cost of such subsidy per unit (at or below HUD Fair Market Rents);
- 3) The type and number of housing units for which the subsidy is provided;
- 4) Number of new participants that will be served;
- 5) The participants' contributions toward the total rent (30% of gross income using HUD standards);
- 6) Utility allowance using the local housing authority's utility schedule;
- 7) Other non-personal service costs (identify such costs and provide a monthly and annual amount per unit); and
- 8) The current 42 participants that are already receiving a rental subsidy. These participants' rental subsidies must be included in your budget. For budgeting purposes, the proposal may assume that the actual rental subsidy cost for each of the 42 Staten Island participants is the full, most recent HUD 1-bedroom Fair Market Rents rate for Richmond County.

**b. Staffing**

- 1) The staff position (e.g., Housing Specialist), including description of duties;
- 2) All staffing costs must be derived from Full Time Equivalent (FTE) annual costs (e.g., FTE=Salary+Fringe, 1 FTE=\$60,000 (Salary) + \$25,000 (Fringe)=\$85,000; .5 FTE would be 50% of 85,000).

**c. Other**

Applicants must provide as much detail as possible for requests for funds for other than rental subsidies and staffing costs, including, but not limited to, how such funds will be used. This "other" category of the budget is provided to ensure HHSHP Staten Island participants remain stably housed and address participants' social determinants of health.

**d. Total Budget**

The budget should clearly provide a subtotal for each budget category and a Grand Total, which sums to the total annual request. Please include per unit costs for each budget category and the Grand Total. Please note your request may not exceed \$800,000 annually.

It is the applicant's responsibility to ensure that all materials to be included in the application have been properly prepared and submitted. Applications must be submitted via the Grants

Gateway by the date and time posted on the cover of this RFA. The value assigned to each section is an indication of the relative weight that will be given when scoring your application.

## **B. Freedom of Information Law**

All applications may be disclosed or used by DOH to the extent permitted by law. DOH may disclose an application to any person for the purpose of assisting in evaluating the application or for any other lawful purpose. All applications will become State agency records, which will be available to the public in accordance with the Freedom of Information Law. **Any portion of the application that an applicant believes constitutes proprietary information entitled to confidential handling, as an exception to the Freedom of Information Law, must be clearly and specifically designated in the application.** If DOH agrees with the proprietary claim, the designated portion of the application will be withheld from public disclosure. Blanket assertions of proprietary material will not be accepted, and failure to specifically designate proprietary material may be deemed a waiver of any right to confidential handling of such material.

## **C. Review & Award Process**

Applications meeting the guidelines set forth above will be reviewed and evaluated competitively by the Department's Office of Health Insurance Programs using an objective rating reflective of the required items specified for each component.

Applicants will be deemed to fall into one of two categories: 1) approved and funded, 2). not approved.

The applicant who possesses the highest score, and meets the requirements of who may apply for this grant (see Section II), will be awarded the HHSHP Staten Island contract. The Department will make the award based on the below scoring table:

<b>Section</b>	<b>Maximum Score</b>
Program Summary	Not Scored
Statement of Need	10
Applicant Organization	5
Program Design and Activities	30
Agreement and Collaborative Plans Between Housing Provider & Health Home	15
Agreement to Meet Reporting Obligations	Not Scored
Work Plan	20
Budget	20
<b>Total</b>	<b>100</b>

In addition to applicant responses to the above statements and questions, reviewers will also consider the following factors:

- Overall merit of the application;
- Geographic coverage;
- Agency capacity and experience to provide the proposed services;
- The agency's access to the target population;

- The appropriateness of the evaluation strategy; and
- Relevance and justification for costs included in the budget.

In the event of a tie score, the applicant with the highest score in Section 4: Program Design and Activities will receive the award.

If changes in funding amounts are necessary for this initiative, or if additional funding becomes available, funding will be modified and awarded in the same manner as outlined in the award process described above.

Applications with minor issues (missing information that is not essential to timely review and would not impact review scores) MAY be processed, at the discretion of the State, but all issues need to be resolved prior to time of award. An application with unresolved issues at the time award recommendations are made will be determined to be non-responsive and will be disqualified.

Once an award has been made, applicants may request a debriefing of their application (whether their application was funded or not funded). Please note the debriefing will be limited only to the subject application and will not include any discussion of other applications. Requests must be received no later than fifteen (15) business days from date of award or non-award announcement.

To request a debriefing, please send an email to [MRTSupportiveHousing@health.ny.gov](mailto:MRTSupportiveHousing@health.ny.gov). In the subject line, please write: *Debriefing Request (Health Home Supportive Housing Program Staten Island)*

In the event unsuccessful applicants wish to protest the award resulting from this RFA, applicants should follow the protest procedures established by the Office of the State Comptroller (OSC). These procedures can be found on the OSC website at <http://www.osc.state.ny.us/agencies/guide/MyWebHelp>. (Section XI. 17.)

*Applications OR New Budget Periods*

**Data Entry of the Expenditure Budget** - A step by step data entry document titled “**Grants Gateway Budget Data Entry Guidelines**” (Attachment 7) has been provided.

- It may be beneficial to use this document as a guide for drafting the budget off-line prior to completing the Expenditure Budget in the Grants Gateway.
- The data entry document highlights the character limits for each field of the Expenditure Budget. Character limits are based on all characters including spaces.

**Funding Opportunity Specification** – The following specifications should be adhered to when completing the expenditure based budget. Failure to adhere to these specifications may result in a reduction of allotted points. Successful applications recommended for award will require modification to meet these specifications prior to contract approval.

- For each section of the budget entered online in Grants Gateway under the Narrative section enter details about other funds for required components of the program.

**Additional Considerations**

- All costs must directly relate to the provision of services outlined in this funding opportunity, be consistent with the scope of services, reasonable, and cost effective.
- Contracted organizations must have on file documentation to support allocation of shared costs to the contract in accordance with applicable regulations and approved budget.
- For each section of the budget in which a budget item is proposed, all required fields must be completed. Failure to complete required fields will result in a global error message which must be resolved prior to submission.
- Failure to provide complete, clear, and concise information may result in a reduced score.
- Equipment purchases for major items that will depreciate in a very short period of time (e.g. one to three years) will only be considered when supported by a strong justification. The Department of Health (DOH) recognizes that organizations may classify items as equipment within their own accounting system that do not fall under the definition of equipment and may be included in the equipment budget category.
- Budget justifications should identify the proposed goods/services that are programmatically necessary and describe how this expense supports the Work Plan objectives of the project. The justification should provide sufficient detail to demonstrate that specific uses and amounts of funding have been carefully considered, are reasonable and are consistent with the approaches described in the Work Plan.
- Budget lines that are not well-justified may negatively impact the application score and/or delay the budget approval process.
- Indirect costs for organizations without a federally-approved indirect cost rate, will be limited to no more than 10% of total direct costs.
- A “match” contribution is **NOT** required for this grant award. Please do not enter information in the match sections of the budget.
- For fields titled “Other Funds” always leave blank. Additional costs incurred by the program, referred to as “in-kind contributions” should be detailed under the narrative sections for the respective budget category. (i.e. In-kind staff should not be listed in the Salary Detail, but please

identify any in-kind staff and the grant deliverable their work supports in the Personal Services – Salary Narrative)

- **Travel:** All Travel, other than travel for individuals / organizations funded under the contractual service line, subcontractor travel, should be budgeted in this section. If awarded Out-of-State travel requires prior approval.
